OVERVIEW

MARKET OVERVIEW

- **Maple Shade Township** is located in Burlington County, New Jersey. Maple Shade was originally incorporated as Chester Township in 1688 and was one of the initial 104 townships in New Jersey. It was not until 1945, that the township was renamed as Maple Shade. Maple Shade Township has reserved a robust business presence with light industrial and commercial centers, in addition o having an identity which is suburban within the Philadelphia metropolitan area. The township is just 9 miles from Philadelphia, 69 miles from Newark, NJ, and 74 miles from New York City. A of the 2010 census, Maple Shade had a population of 19,131.
- **The Moorestown Mall** lies only 3 miles away from the Cherry Hill Mall which recently underwent a major expansion to accommodate high end stores, but Moorestown is now undergoing a renovation of its own. The side of the mall facing Route 38 is expected to get a more "Village"-like appearance due to the addition of Eastern Mountain Sports along the exterior.
- **New Jersey** is the fourth-smallest state, but the 11th-most populous and the most densely populated of the 50 United States. It is bordered on the north and east by New York, on the southeast and south by the Atlantic Ocean, on the west by Pennsylvania, and on the southwest by Delaware. History is rich throughout New Jersey. It was inhabited by Native Americans for more than 2,800 years, with historical tribes such as the Lenape along the coast. In the early 17th century, the Dutch and the Swedes made the first European settlements.
- The English later seized control of the region, naming it the Province of New Jersey after the largest of the Channel Islands, Jersey. New Jersey was known as the "Pathway of the Revolution" with over 100 battles fought on New Jersey soil. Between 1900 and 1930, New Jersey's population more than doubled, and manufacturing became a $4 billion industry. Nicknamed the "Garden State," New Jersey is the mecca of cherry blossoms, beautiful gardens and lakes and an outdoors enthusiast's paradise. It is home to more than 9,071 farms covering 715,057acres of farmland.
- **New Jersey's** location as a crossroads of commerce and its extensive transportation system have put over one third of all United States residents and many Canadian residents within overnight distance by land. This accessibility to consumer revenue has enabled seaside resorts such as Atlantic City and the remainder of the Jersey Shore, as well as the state's other natural and cultural attractions, to contribute significantly to New Jersey's record tourism revenue of $40.3 billion and 87.2 million tourist visitations in 2013. The Jersey Shore encompasses the coastal region of the state and is lined with over 40 communities, each with a different character and flavor. Geographically, the shore covers about 141 miles of oceanfront from New Brunswick in the north to Cape May Point. Some cater to summer tourists and visitors, others are completely full-year residential communities, and others still are a mix of both. Several casinos lie along the Atlantic City Boardwalk, the first and longest boardwalk in the world.
